WILD WEST Camp

THEME #3

The frontier has disappeared from the land of the fruited plain, and there is no longer a need to worry about your survival. If you choose to take part in this camp, you may experience the "wild west" of the new millennium. Activities will revolve around challenges that rivaled the Old West. In order to provide extra involvement with the horses, you will steer away from the boating activities. While experiencing the wild activities planned during this week, you may more deeply appreciate the accurate accounts of the wild characters of the Bible.
